

FEATURES:

- ◆ High-efficient woofer, make up low-frequency defect of the original-vehicle.
- ◆ High-efficient Amplifier, give full play of the original speaker.
- ◆ Customized DSP EQ, the really special work for the user.
- ◆ Customized DSP delay, listening the stage effect.
- ◆ Plug and play wire harness with the original-vehicle, lossless the audio upgrade.
- ◆ Install hided, No occupy space.
- ◆ 240W(60W*4) maximum super bass power output.
- ◆ Built in 140W RMS power Amplifier-powerful and undistorted low frequency response.
- ◆ Woofer Impedance ($2\Omega+2\Omega+2\Omega+2\Omega$)
- ◆ 8" subwoofer sealed enclosure design-extended low frequency response.
- ◆ Subwoofer PHASE ($0^\circ/180^\circ$)
- ◆ LED power indicator.
- ◆ Compact design-easy to install in car.
- ◆ Auto Remote On When Speaker High Level Input.
- ◆ Dimensions (W×D×H):350×240×76mm
- ◆ Weight: 4.6kgs.
