Nut Plates

6-042

RoHS WEEE

Advantages

- The nut plates have been designed to allow an easy installation of the hinges in our 218-series. Tightening the screws from the outside only.
- Elimation of the time-consuming fitting of small single nuts in often quite difficult accessible corners.
- Oversized holes/cutouts allow for horizontal and/or vertical adjusting.
- Adjustment and alignment with just one tool, only from outside.
- The teeth (1.) on all 4 corners create enough friction to simplify installation and adjusting.
- If this friction is not wanted: these teeth can also point away from the inner skin of the door/frame.

Material

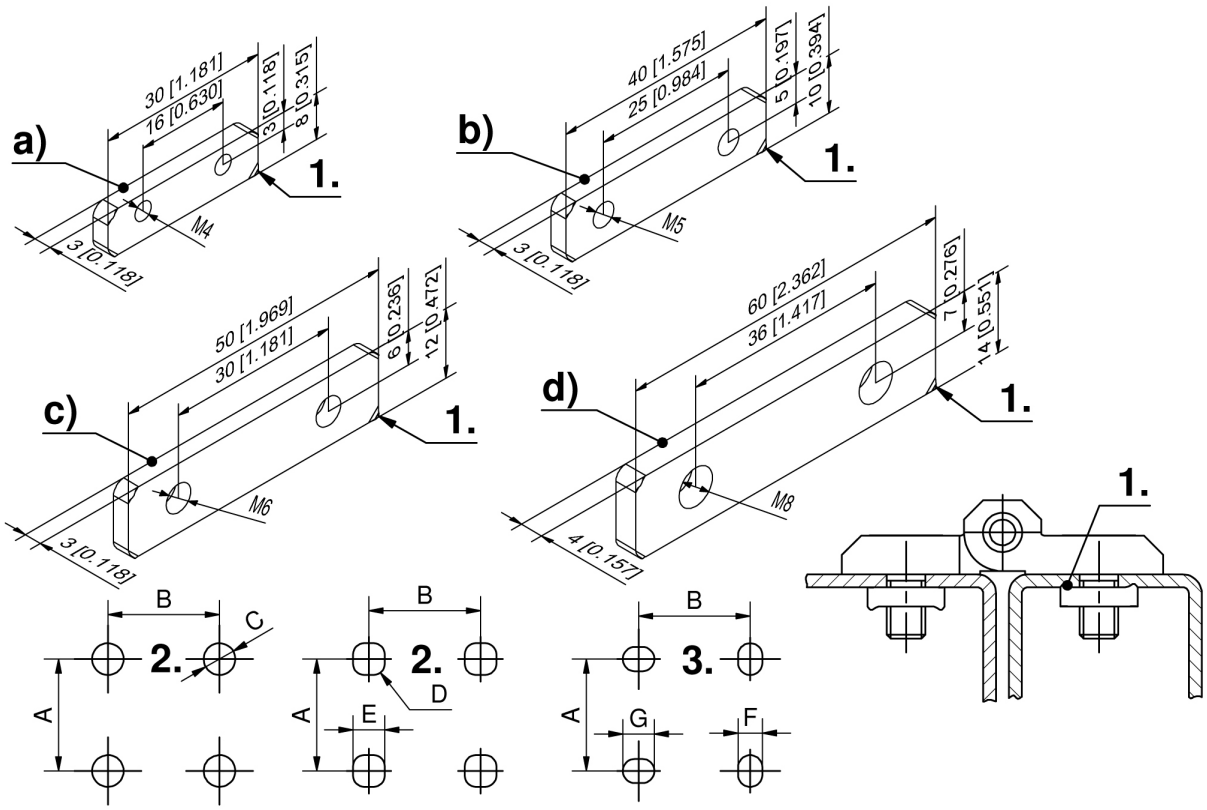

- **Nut plate:** steel, zinc plated

Remarks

2. cutout for horizontal and vertical adjustment
3. cutout for horizontal and/or vertical adjustment
